July 1, 1961

The Inhibitor Inhibited (Monoamine Oxidase Inhibitors)  
Western Psychological Tools and Eastern Cultures  
The Mechanics of Microsurgery  
Women in Suburbia

July 15, 1961

Intimations of Automation

Rock Gongs

Sounds From Space (Radio Astronomy)

Science: Practical and Theoretic (Engineering Education)

In Brief: Synthetic Penicillins and Clinical Utility

Magnetic Fields and Electrically Conductive Fluids

South American Shortage of Scientific Journals

Sponsoring Science Education

---

August 1, 1961

VTOL Booster (Engines for Vertical Takeoff)

The Garden of Eden and Myth Analysis

Monte Carlo Methods (Mathematics and Chance)

Builders — Past & Present

In Brief: Great Britain's Atomic Energy Authority

Nucleon-Antinucleon Annihilation and Gamma Rays

Subatomic Particles

Laminar-Flow Aircraft Wings

Sensory Patterns of Pygmies

Peak Power of Supernova

Electronics Industry in the U.S.A.

Tachometer and Control Systems

---

August 15, 1961

DNA-Modified Ducks

Super- and Sub-sonic Flight

College Guidance Programs

Time in Motion

In Brief: Airport Congestion and Traffic Control

Chilean Earthquake, 1960, and Tsunamis

September 1, 1961

Viruses and Tumor Destruction  
Mushroom Cults  
Game Theory and Utility  
Psycho-Prophylactic Preparation (for Childbirth)  
In Brief: Segmented Mollusc Neopilina  
Superconductor Problems  
World of Particle Physics  
HeLa Cells

---

September 15, 1961

Dowry, Inheritance and Land  
Environmental Adaptation of Man  
Iron and History  
Sickness in Plants  
Decisions, Decisions, Decisions (Group vs. Individual)

---

October 1, 1961

New Countries and Old Cultures  
Thiamine and Health  
Neutrophils vs. Infections  
Cracks in the "Cracker" Culture  
Man's Air Conditioning Mechanism

---

October 15, 1961

Tissue Crystals  
The Unconscious Dismissed (Psychotherapy in Russia)  
Gnotobiotic Research  
Microbe Killers  
A Thin Slice of Meteorology

On The Behavior of Volcanoes  
Mongolism  
Man vs. Climate  
The Riddle of Sunspots  
The Ubiquitous Staph  
The Hypothalamus and Social Stimuli

---

November 15, 1961

Controlling Tick-Borne Encephalitis  
Strontium in the Teeth  
Epidemics and Starlings  
Male Weaklings (Spiders)  
Mammoths and the Deep-Freeze Theory  
On Drugs and Reproduction

---

December 1, 1961

Veteran Space Travelers (Meteorites)  
More Shark Lore  
Speech and Personality  
Organic Regeneration  
Living Breakwaters (Coral)

---

December 15, 1961

Counting and Sizing of Particles  
Water Desalting  
Wandering Tree Pathogens  
Cervical Secretions: Cancer and Conception

---

January 1, 1962

Heart Disease and Human Habits  
The Seas — Man's Cupboard?

The Consistency of Perception  
The Packaging of People (Seat Belts and Auto Travel)  
Greek Fire — Fiction & Friction  
Regulated Aging

---

January 15, 1962

Measles Vaccines  
Drugs and the Alcoholic  
On The Habits of Bees  
Water Supply: Use and Abuse  
Vitamin C and Human Needs

---

February 1, 1962

The Call of the Dolphin (Communication)  
Air Pollution and Lung Cancer  
The Geogens of Cholera  
African Music and Western Culture  
Healthy & Unhealthy Stresses

---

February 15, 1962

The Unknown Seas  
Mr. Chips Transistorized (Teaching Machines)  
Rhythms of Biology  
The Shanidar Dream (Archeologic Discoveries at Shanidar)  
In Brief: Engineering Salaries  
    Conch Diet and Polio  
    Ecologic Effects of Rabbits on Islands  
    Mongolism in Newborns  
    Reciprocating Engine Operated by Solar Heat  
    The Committee on Scientific Manpower  
    Academy Membership Fee Tax Deductible in Britain

March 1, 1962

The Psychology of Purposive Thinking

Cement in the Soviet Union

Ecology and Coexistence

The Benevolence of Viruses (They May Be Useful)

In Brief: Utilization of Air Suction in Vehicles

Myth of the Male Spider

Definition of the Second

Ages of Stony and Iron Meteorites

The Growth of Skin Diving

Improved Language-Teaching Techniques

---

March 15, 1962

The Neuron and the Brain

Sewage Recycling (For Pure Water)

Arctic Ice

The Expansion of the Earth

In Brief: Imported Algae Overrun Pacific Islands

Cosmologic Conflict

Salmon Migration

Uncertainty Principle

Improved Refrigeration Unit

Competent Foresters Needed Abroad

Largest Artificial Lake Created by Dam

Auroras (Borealis or Australis)

---

April 1, 1962

Scanning Techniques (Structures of Living Cells)

Man, Melanin and the Sun

From the Observation of Rats

Evolution of Life

In Brief: New Sources of Energy

Adopting the Metric System

Scientific Research Costs More

Recovery of Shale Oil

Arsenic Poisoning Killed Napoleon

---

April 15, 1962

Vertebrate Flight

TV and the Psychiatrist (Psychological Effects of Television)

Some Natural History of the Computer

A New Look At the Primates

In Brief: Mountain Building

Chitin

Molecular Electronics

---

May 1, 1962

The Kinins: Structure & Function

The Craters of the Moon

Breaching the Immunological Barrier

The Intellectual and the Businessman

In Brief: Bacteria Produce Resistant Mutants

Nerve Regeneration

Chargistors

---

May 15, 1962

Lunar Land Vehicles

Evolution: Selection & Guidance

Hunger

Selection of Scientists

In Brief: Serious Shortage of Physicians in U. S. Expected  
The Cult of Togetherness and Education  
Structure of Lignin  
National Aeronautics and Space Administration  
Hires Decision Makers  
Government Payment of Page Charges

---

June 1, 1962

Delinquency in Contemporary Society  
The Botany of Rain (Organic Molecules in Rain Production)  
Fossils Living and Dead  
The Functions of Mucus

---

June 15, 1962

Quality, Quantity and the Scientific Press  
The Care and Breeding of Polymers  
The Colonization of the Netherlands  
In Brief: Sidelights on U. S. Industry

---

July 1, 1962

Science, Its Growth and Nourishment  
By Bus, Train, or Car? (Transportation in Congested Areas)  
Cosmic Rays and Their Sources  
Bats — Self-Directed Missiles

---

July 15, 1962

Variations on an Enigma (Cancer)  
The Evolution of a Toy (The Helicopter)  
Fallout Shelters and Survival  
In Brief: American Negro Children and Emotional Adjustment  
Teenagers and Alcoholism

August 1, 1962

... And Distant Relatives (Changes of the  
Primate "Family Tree")  
The Accuracy of Dating by Radioactivity  
High Hi-Fi (Masers)  
The Basis of Octopus Behavior  
In Brief: Nuclear Power Reactors  
Korean Lice Resistant to DDT  
Plasma Physicists Revise Guides for Experiments

---

August 15, 1962

Creativity (and the IQ)  
Cosmic Questions  
Sleep, Dream, and Relax (The Physiology of Sleep)  
Locusts — Their Loci and Foci  
In Brief: Abalone Juice Inhibits Growth of Bacteria  
Variability of Mice

---

September 1, 1962

Up From the Reticular System (Evolution and the Brain)  
Computers and Clinical Medicine  
Calcium and Consumption  
Keeping Birds in Hand (Maintenance of Ecologic Balance)  
Binary Thinking and Religion (Opposites in Human Thought)  
In Brief: Wireless Transmission of Electrical Power

---

September 15, 1962

Education of the Nuclear Engineer  
Trachoma — Ancient Medical Challenge  
Bigger Jobs by Smaller Units (Electronic  
Microminiaturization)

Algae Futures (Their Use by Humans)

In Brief: The Gibbon's Place on the Primate Family Tree

Tri-Iodothyronine in Cardiac Pacemaker

Soviet-American Academic-Exchange Program

Inhaling Organic Vapors in Plastic Cements

New Iron Deposit Found in Canada

Transuranium Elements

---

October 1, 1962

Tight Light (Lasers)

The New Intellectual Frontier (Increasing Intellectual Potential)

The Atherosclerotic Profile

Balancing the Books on Tektites

In Brief: Great Lakes Region to Become Greatest Industrial Area

Source and Composition of Cosmic Rays

Increase of Number of Engineers and Scientists

Computer Codification of Statutes

Sharks' Rate of Travel Under Investigation

Noctilucent Clouds

---

October 15, 1962

The Energy of Maintenance (In Bacteria)

... And Economic Growth (Research's Role in)

Antibiosis in the Seas

Seagoing Reactors

In Brief: Fossil Fish Deposits in Canadian Rockies

November 1, 1962

Attitudes and Autoregulation (Composition of Groups)  
Hot World of Cold Physics (Cryogenics)  
Artifacts and the Liver  
When Is a Language (Comparative Linguistics)  
In Brief: New York Academy of Sciences' Activities  
Social Maladjustments Contribute to Auto Accidents  
Irradiated Polymers and Wood

---

November 15, 1962

The Dominant Influence (and History)  
Faster Than Light (Čerenkov Radiation)  
Motivation and Mathematics  
The African Himself — Africa's Cultural Change  
In Brief: Explosive Shocks and High Pressures

---

December 1, 1962

Fact and/or Philosophy in n Volumes (Encyclopedias)  
America's Third Mythology (Social Myths and Patterns)  
Power Competition (Nuclear Reactors)  
Macro- and Micro-Symbionts (Symbionts in Nutrition)  
The Ultraviolet Eye (Orbiting Telescope)  
In Brief: Telstar  
Atomic Explosions for Engineering Purposes

---

December 15, 1962

Proteins and Populations  
Icy Symmetry (Snow)  
Index  
In Brief: The Cost of Books

dents
